

# Save TIME and MONEY

**EXAMPLE:** A facility with 20 docks x 2 trailers daily per dock (Monday - Friday)

**myQ Dock Management will improve your facility's:  
Efficiency | Energy Savings | Maintenance | Safety**

Monitor load times and get alerted of trailers sitting too long or in detention.

Improve Trailer Turn Times by **25%**

Reduce Detention Fees by **\$11,000** per year

Receive notifications of doors left open to improve climate control.

Reduce Energy Costs by **\$4,000** per year

\*based on cold storage facilities

**Increase the Lifespan** of Dock Equipment and Operational Uptime.

- Analyze faults online.
- Schedule maintenance around busier loading times.
- Review dock usage over time.

Reduce the chances of accidents by monitoring vehicle restraint usage and receive alerts of unrestrained trailers during loading.

In 2017, employers paid

**\$9.72**  
**BILLION**

in workers' compensation for loading dock injuries
