

CentraAir Series, 6' x 8', 45,000 CIR,
Full Range Toe Guards.

DLM Overview...

- Industry Experience Since 1962
- Extensive Application Experience
- Fully Integrated Manufacturing Facilities
- On-Site Engineering & Customer Support
- National Network of Knowledgeable Sales and Service Representatives
- Superior Structural Construction
- Accepted Nationally by Fortune 500 Companies

Since introducing the freight industry's first Edge-of-Dock leveler in 1962, DLM has continued to provide innovative ways to improve productivity and safety at the loading dock. The CentraAir® Series Leveler combines the push-button convenience of hydraulic levelers with the economics of a mechanical leveler to bring value and performance to your loading dock. From superior structural design to unlimited operator features, the CentraAir Series air powered leveler is a wise and environmentally friendly investment.

CentraAir® Series Air Powered Dock Leveler

Designed, Engineered & Manufactured
in the U.S.A

DLM's continuing commitment, is to design and build the very best dock levelers our industry has to offer. A strong customer focus has facilitated the inclusion of important user features into every CentraAir Series leveler; important features like:

Structurally Superior

- Over 29" of direct rear hinge support – heaviest in the industry.
- Four sided box construction provides unmatched structural integrity.
- Deck construction is capacity dependent to insure your loading bridge matches the demands of the facility
- Leveler lip and deck are constructed with high-strength 55,000 lb yield, safety treadplate.
- Deck support members are application dependent
 - Low Capacity - Roll form "C" channel
 - Medium Capacity - Structural "C" channel
 - Heavy Capacity - Structural "C" channel and "I" beam
- Close and consistent spacing of beams provide necessary support for 3-wheeled and 4-wheeled fork trucks (35k+CIR).

The DLM CentraAir Series Air Powered dock leveler provides proven durability, dependability and safety as an alternative to hydraulic, mechanical and other power assisted levelers.

CentraAir Series Standard Features Include...

- | | |
|--|--|
| • Push Button or Lanyard Control | • Below Dock Endloading Control |
| • Powered by In-Plant Air System or Dedicated Compressor | • Lockout/Tagout Maintenance Strut |
| • Proven Industrial Air Bellows Technology | • Night Locks/Cross Traffic Support |
| • CleanSweep™ Frame | • 3-wheel ForkTruck Protection (35k+CIR) |
| • Low Maintenance Design - Few Moving Parts | • Lip Supporting Service Strut |
| • Multi-position Structural Steel Safety Legs | • Full Range Toe Guards |
| | • Two (2) B410-14 Laminated Bumpers |

Efficient Power

- Uses existing air supply or dedicated compressor.
- Lifting system is an automotive grade air bellows, that has proven reliable in the trucking industry.
- Activated by push button or manually via a lanyard control, located at the back of the leveler.

Unique Lip Latch

- Provides reliable lip extension activation.
- Positive, full height lip extension for 16", 18" and 20" lip lengths.
- Lip mechanism is fully yieldable in case of impact with a backing truck.

Deck & Lip Maintenance Struts

- Permanently mounted, hinged maintenance strut supports deck during maintenance or inspection.
- Maintenance strut is lockout/tagout capable.
- Lip support strut permits independent support of lip.

CleanSweep™ Frame

- Provides clear access to area beneath platform.
- Allows easy removal of debris.
- Lifting mechanism is compact making clean up a snap.
- Ideal where maintaining sanitary standards is important.
- Optional quick connect blow gun is available to quickly and easily clean out the pit.
