

REDUCE EXPENSES

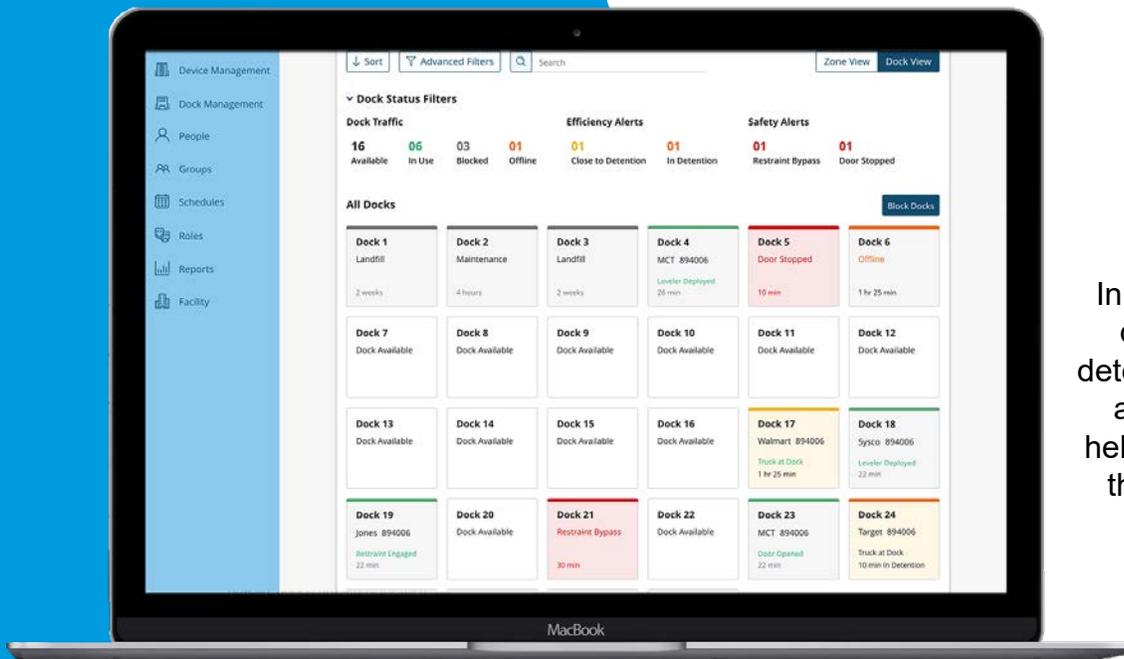

THE VALUE OF A CONNECTED DOCK

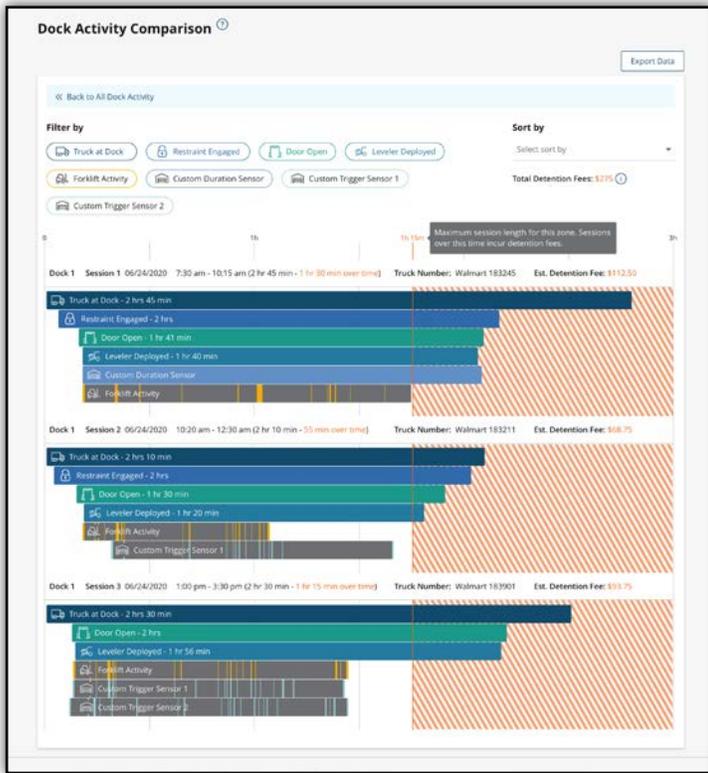

Receive text/email notifications of truck turn times taking too long.

Assign carrier and trailer information to each truck-at-dock session for more accurate turn times and records of activity.

In real-time, see what docks are close to detention or in detention and be proactive in helping to quickly finish the loading session.

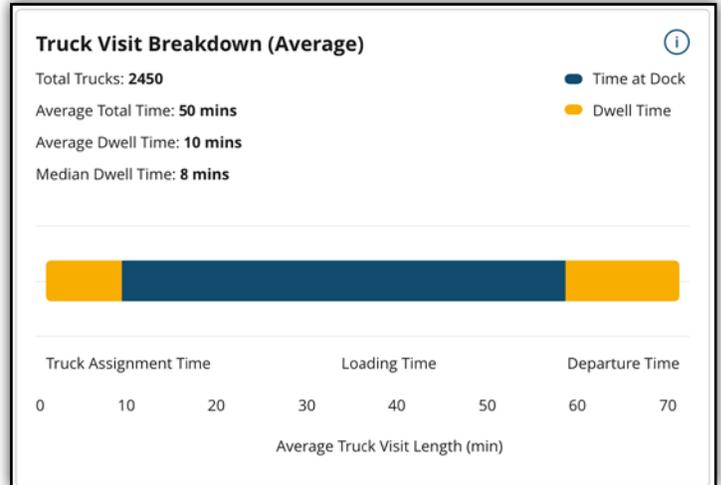

Dock Management

Dock Sessions **Carrier Management**

Search [] Show Deleted Carriers (0) Add Carrier

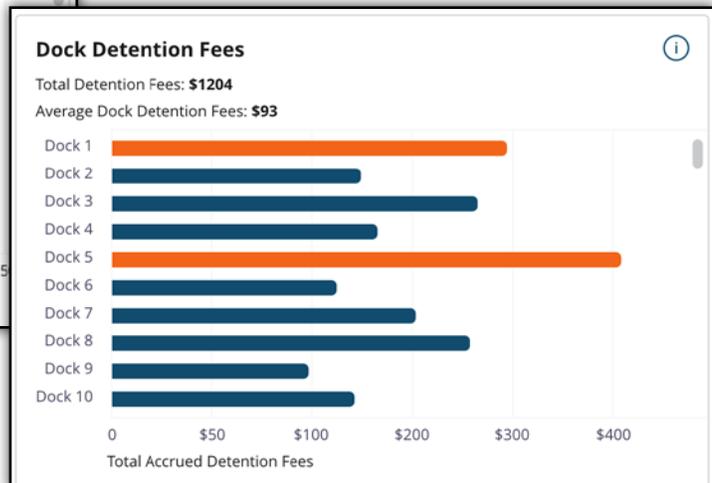

Carrier Name	Status	Hourly Truck Detention Fee	Comments
Default	Active	\$68.34	This carrier and hourly truck detention fee will be applied to all dock sessions by default if a custom carrier is not selected
Carrier #2	Active	\$68.34	
Carrier #4	Active	\$68.34	
PT Trucking Center	Active	\$150.00	Contract through end of 2021
LTL Carrier #783	Active	\$68.34	Spot rates
Motor Freight Co.	Active	\$68.34	

Manage and set hourly detention rates by carrier or as a default.

Cross reference any past truck session with received detention invoices to ensure accurate charges.

Evaluate wasted dwell time after loading is complete to determine which docks or carriers have trucks sitting too long after the vehicle is released.

Analyze average and total incurred detention fees by carrier, dock, or date.
